

Redburn Crash Course: Summer Series

Part 5 of 11: Chemicals

Join us weekly as 11 Redburn analysts guide you through a series of major European sectors. Every Thursday at 3pm BST we will be hosting an instructional tour through a different sector (full schedule below), with each 45-minute call comprising a presentation by the analyst followed by Q&A. Whilst the calls are aimed at those relatively new to the industry (covering sector drivers, key data, risks and valuation methodologies), all experience levels are welcome.

15:00 BST / 16:00 CEST / 10:00 EDT
