

15 June 2023

The 2023 AI Conference

Artificial Intelligence (AI) is the prominent theme of the year, captivating not only technology investors, but the wider market given the value opportunity on adoption and the associated negative impacts. AI has transcended from a buzzword, to fundamentally changing the way we interact with technology, presenting material revenue and efficiency opportunities for adopters. We have reached the beginning of a new era, moving beyond concept, to practical adoption.

The rapid evolution of AI means that private companies typically have the most valuable insights. For this conference, we have gathered some of the pioneers across the ML/AI stack to address investors' top questions.

Virtual Conference, 14.00 BST / 15.00 CEST / 09.00 EDT

Agenda

14.00 Welcome and Introduction Presentation

Alex Haissl, Software & Cloud Research, Redburn

Anton Black, Partner and Co-Head of European Technology, Rothschild & Co

14.30 Presentation and Q&A: Stability AI

Tom Mason, Chief Technology Officer, Stability.AI

15.20 Presentation and Q&A: CoreWeave

Brannin McBee, Co-founder & CSO, CoreWeave

16.10 Presentation and Q&A: Inworld

Florin Radu, Head of Partnerships, Inworld

17.00 Presentation and Q&A: CausaLens

Darko Matovski, Co-founder & CEO, CausaLens

17.50 Presentation and Q&A: KX

Ashok Reddy, Chief Executive Officer, KX

Speakers

Tom Mason, Chief Technology Officer, Stability.AI

Tom Mason is the Chief Technology Officer at Stability.AI. Tom leads the Engineering division for the Stability.AI Platform and Infrastructure, bringing the power of Stability.AI models to customers around the world through our developer platform and hyper-scaling partnerships. He was previously Chief Technology Officer (CTO) at Chorus Intelligence, global data platform for law-enforcement and formerly founder of tech accelerator YouSoft.

Brannin McBee, Co-founder & CSO, CoreWeave

Brannin McBee co-founded CoreWeave and is the company's Chief Strategy Officer. He spent a career in institutional risk management before founding CoreWeave in 2017. Brannin manages capital markets efforts for CoreWeave and runs their M&A and investment programs.

Florin Radu, Head of Partnerships, Inworld

Florin is the Head of Partnerships at Inworld AI. Prior to Inworld, he was part of Sony Music's venture capital and strategy team, investing in startups across the music industry. Before Sony Music, Florin worked in tech, media and telecom investment banking at Credit Suisse. He holds an MBA from Stanford and is an avid tennis player and amateur EDM producer.

Darko Matovski, Co-founder & CEO, CausaLens

Darko Matovski is a Macedonian entrepreneur and software engineer known for his pioneering work in Causal AI - a new category of intelligent machines that reason like humans. He is the co-founder and CEO of causaLens, a \$50M venture-backed scaleup. Darko holds a PhD in Artificial Intelligence and an MBA from the University of Southampton. Prior to causaLens, he made transformative contributions to AI research at the National Physical Laboratory and Man Group.

Ashok Reddy, Chief Executive Officer, KX

Ashok Reddy, CEO of KX, is a leading voice in vector databases, semantic search, and temporal LLMs. With over 20 years of experience leading teams and driving revenue for Fortune 500 and PE-backed tech companies, Ashok is recognized as a visionary and innovative leader. His ten-year tenure at IBM saw him oversee the delivery of enterprise products and platforms for a global clientele. Holding pivotal roles at CA Technologies, Broadcom, and as CEO of Digital.AI, Ashok is renowned for his expertise in transforming software businesses and creating new

market categories, in the area's enterprise software, AI, DevOps, Cyber Security, blockchain, and IoT innovation.

Alex Haissl, Software & Cloud Research, Redburn

Prior to joining Redburn, Alex was Head of Automotive Research for Europe and the US at Berenberg and Credit Suisse, focusing on technology. He also founded Keewau, an online training and development company. Alex began his career in the Vienna Police Force and holds a Magister in Economics from the Vienna University of Economics and Business.

Anton Black, Partner and Co-Head of European Technology, Rothschild & Co

Anton is a Partner and Co-Head of European Technology. He has been with Rothschild & Co since 2004 and has a broad technology remit with a particular focus on software companies. Anton has extensive experience across all types of transactions including: acquisitions, disposals, public and private M&A, IPOs, and fund raising mandates. Anton advises companies at all stages of their growth profile from early stage high growth businesses to large listed companies.

Megan McNally, Corporate and Strategic Access, Redburn

Megan joined Redburn from Evercore ISI in New York where she was on the equity research sales team. She has a BS in Marketing from the University of Delaware.

Olivia Douglas, Corporate and Strategic Access, Redburn

Olivia joined the Redburn Corporate Access Team in 2022. Prior to this, Olivia attended Nottingham Trent University and worked in various companies as an Executive Assistant.
